Winter's Gate, Pt. 5

Insomnium

Hear the sound resonate
Through your flesh
Through hte ground, across the skies
Cracking roar, a thunder's bark
Echoes here, the voice of doom
Blackened clouds now seize the welking
Wielding all of winter's ireAnd it will rise with a white voiceless face
From from the heart of earth
From under the mountain
The stromwind engulfs us
The whirl of white and grey
The downfall is upon us
The reprisal of wantom godsHere at world's end we will termble
Far beyond the deceitful seas
Here we hide now, crawl to shelter
Far away from the homely shores
And it will rise with a white voiceless face
From the heart of the earth
From under the mountain
Devouring the sun and the earth, forest an sea
Devouring us all
