

# Up Step

**Patrick Jaouen, Joshua Daby & Shawn Rotolo**

I've waited far too long  
For a place amongst the King and Gods  
For you to stand in my way  
If you think you're gonna stop me try  
Because Im much too strong  
A million hands up all along  
And I'm much too smart  
And then I fit in a single song

You Better Watch Yourself

I don't mind  
If you coming along now for the ride  
But up Step your pace  
I can tell you're scared from the look on your face  
Tell your quiet mind  
Don't you stay around for too long  
Cause I ain't got space  
for the ignorant mind what a waste

You Better Watch Yourself

I made it by myself  
So you don't get to stay  
But Up Step your pace  
I can see the truth from the look on your face  
And tell your friends  
Cause they ain't never seen no one like me  
Step up your game  
Cause I kicking it up and Im taking names

You Better Watch Yourself
