## Eddie Logix

Our buildings have fallen, our walls all caved in  
And we can't comprehend this sad state that we're in  
So we sift through the ashes of what we've become  
And surrender here one by one, so push us down  
And we get right back up again  
The things you're telling me aren't making any sense  
Right back up again  
I'm sick of wishing for someone else to come  
Let the blind lead the blind  
'Cause it's eye for an eye in your so called life  
Are you out there? Are you listening?  
Is there something we're still missing?  
Let the blind lead the blind  
'Cause it's eye for an eye, we all fall down  
And we get right back up again  
The things you're telling me aren't making any sense  
Right back up again  
I'm sick of wishing for someone else to come  
We're spinning out of control  
We're trying to find somewhere to land  
And I don't want you to know  
The things that keep me down  
'Cause we get right back up again  
The things you're telling me aren't making any sense  
Right back up again  
I'm sick of wishing for someone else to come
