

# One Sound

**Jacky Murda**

One sound one  
Still lovin' it, BFGOne sound, one love  
Something you should think of  
We press charge, you press find  
Find out my piece of mindI love this game  
Don't need a head start anymore  
We sure became the breakout  
Talk about meteorSo check your head  
We got no distance  
To the score, manOne sound, one love  
Seismographic, fucked up  
It's state of art my state of mind  
Just lick my lips and grindI love this game  
Don't need a head start anymore  
We sure became the breakout  
Talk about meteorSo check your head  
We got no distance  
To the score, manOnce you're in you can't get out  
The infinite roundabout  
I dare you allGimme one sound, one love  
Gimme all it takes  
Communication, keep the faith  
Blood in vein, love in wine  
Bite my lip, one soundI love this game  
Don't need a head start anymore  
We sure became the breakout  
Talk about meteorI love this game  
Don't need a head start anymore  
We sure becameOne sound, one love  
One sound, one love
