

Leave Me Alone

Airplay

You're hittin buttons on the radio
mad at the world for what I just don't know
you can't see straight behind those Foster Grants
blind to the truth, you know you blew your chance
One cup of coffee down
your mouth goes to town, oh, oh, oh
I just woke up leave me alone!
I want to take a bath, you expect a pass
Oh no, not now...
you blow smoke in my face, bums me out like mace
Oh no, can't breathe
You think you are so hot, let me tell you you're not-
just get out and leave me alone!
Love is like a Maserati in your eyes
you like it fast and pay too high a price
you think a permanent will change your life
but like your life, your head is wound too tight
You eat organic food, then shoot yourself with booze
Ooh, ooh, ugh!
You won't wake up leave me alone
You gun your TR-3, cruisin' to spite me
Oh no? Oh yes!
Drop me a wad on army clothes, just to be in Vogue
Oh no... too fat
You think you are so hot, let me tell you you're not-
just get out and leave me alone!
You pump yourself with lies and buy them cause you're high
Oh no Oh - just wake up...
Leave me alone
You roller skate like Cher, but no stars are there
Oh no, Ha Ha!
Five big ones on your bet, you'll get together yet - Oh yeah, Oh sure
You think you are so hot, let me tell you
you're not-
just get out and leave me alone!
