Fall From Grace

[Infernal](#)

Don't make me fall from grace
I know that I could with you
Yeah, if nobody else was here
I know I would lose myself
'Cause if I fall from grace
I wouldn't know what to do
I know that I'm lost in fear
Because I could lose myself in you
Touching, breathing
Much too close for reason
Dreaming, yearning for a chance to run
But I stay
I don't even turn away
I won't dare to look, just pray
That I won't give in to you
Don't make me fall from grace
I know that I could with you
Yeah, if nobody else was here
I know I would lose myself
'Cause if I fall from grace
I wouldn't know what to do
I know that I'm lost in fear
Because I could lose myself in you
Blaming, taming
My desire flaming
Guilty, just to know myself with you
Is it wrong? I feel it's been so long
The sweetness is bliss and pain
I silently go insane
Don't make me fall from grace
I know that I could with you
Yeah, if nobody else was here
I know I would lose myself
'Cause if I fall from grace
I wouldn't know what to do
I know that I'm lost in fear
Because I could lose myself in you
I was set and happy
I was not at all expecting you

What do I do with what I'm feeling?
Can I really find the strength to walk away?
Don't make me fall from grace
I know that I could with you
Yeah, if nobody else was here
I know I would lose myself
'Cause if I fall from grace
I wouldn't know what to do
I know that I'm lost in fear
Because I could lose myself in you
