

# Fox

## DJ Burn

I met a fox the other day  
When I asked how much she cost, I had to pay  
    All of a sudden I'd brought her home  
She's one hundred kilos dressed in silver chrome  
    She's my world, she's so rad  
    And she's the best ride I ever had  
    She's my life, she's so bad  
    And she's the best ride I ever had  
    When I imagine me and her  
    You know that I get a stand-up fur  
    I give her oil, I give her gas  
    And get her seat beneath my ass  
And then the turtledoves drive away  
    She's my world, she's so rad  
    And she's the best ride I ever had  
    She's my life, she's so bad  
    And she's the best ride I ever had

She's secondhand, so what?  
She's true, she's by my side  
    For all I care, she's hot  
    She's a real good ride  
    When we go out people stop  
    And stare with jealous minds  
It's okay for me, as long as they let her be  
    To prevent something like a theft  
    I got her locked around a tree  
    She's my world, she's so rad  
    And she's the best ride I ever had  
    She's my life, she's so bad  
    And she's the best ride I ever had  
    And she's the best ride I ever had  
    And she's the best ride I ever had
