Don't Even Think About It

Aaron Pritchett

I was thinking bout the perfect words
To say to that living doll
By the time that I had worked it out
She was half way down the hallMy schoolboy fears of being shot down
Kept that dream from getting off the ground
Lookin back I figured out I thought about it too longSometimes you just gotta jump in, get yourself movin
Countdown the clock is runnin
Sometimes theres no time to doubt it, just gotta do it
Dont even think about itSo, baby if it seems Im coming on too strong
Its just that I dont want to feel this feeling gone
Cuz in this moment there could be a golden opportunity
To tell you what you mean to me
Dont want to think about it too longChorusSoloChorusDont even think about it
