

# Never Saw It

## A-Wax

I use to just catch a dope-boy -  
'tell him like give me 20-30"  
-I'ma give him back 10 clean.  
He going to flip a house or some shit  
Who's going to say no to that?  
I went dope-boy to dope-boy  
Fuck all Jimmy Ivine, Dr. Dre discover me shit  
From the ground up  
They'll never see all that though

They don't see what I gave for this; can I see what I give for this?  
All they see is my diamond chain, but do not know what I did for this

They don't see gift it is  
Do not see gave for this  
might of seeing how my watch is worth  
but don't think that's what I paid for this  
They don't know who got robbed for it  
Only me and my dawgs know it  
No one told us no one had to go time behind bars for it  
Took the dope from my real bro  
Bought some beats that I won't ever use  
I got memories both good and bad  
and theres some things you'll never loose  
They don't know what I'm going through  
Need some help and they noticed it  
Got another eviciton note  
What I need come to show this shit?  
Show some money on Instagram  
this bitches bite like fishes do  
still here my bro voice in my head  
don't let that bullshit get to you  
Can't read a new road continuous  
It's all down hill once that go  
lost my shit to that non-sense  
and that concrete was a black rose  
I tell everyone; you might get it  
so be careful what you ask for?  
I climb on that bitch, went up and down

fairy; just like my cash flow

Bought a future verse with my rent check

They'll never see that though

See eye to eye with my friends less

They'll never see that though

Just fell off with my main thing

They'll never see that though

I need help now just to maintain

They'll never see that though

Smoke 4 blunts when I wake up

They'll never see that though

Just sold the rest of my Jacob

They'll never see that though

So broke now I can't see straight

They'll never see that though

Car broke down and my feet ache

They'll never see that though

Rollie on my right wrist

everybody see that hoe

got strung of that white bitch

ain't nobody see that though

Flavor Yay is my favorite mane up here

you'll never move that brick

I had a rap deal with the Sinaloa Cartel

You never knew that shit

1,000 pounds on U-haul

They ain't suppose to know all that

Quarter mill in that youtube

we wont just supposed to blow all that

looking back that wasn't smart

but; how I'm suppose to know that?

Looking at a whole pound of weed

trough fountain leaves;

we can roll that

Brazy life twisted turns ups and downs

don't get concerned

paid the price; cash in full, keep the change

Yeah bitch it's yours

All they see is my game face

They don't see all the pain face

How'd I come so fucking far, still be in

the same place?

They don't know what I'm dealing with,

never see when I'm feeling sick.  
It's almost like when they look at me,  
all they see is the killa shit  
All they see is the rapping shit  
not the butcher knives in my back and shit  
You think you know it all?  
I think that's wack as shit

Bought a future verse with my rent check  
They'll never see that though  
See eye to eye with my friends less  
They'll never see that though  
Just fell off with my main thing  
They'll never see that though  
I need help now just to maintain  
They'll never see that though  
Smoke 4 blunts when I wake up  
They'll never see that though  
Just sold the rest of my Jacob  
They'll never see that though  
So broke now I can't see straight  
They'll never see that though  
Car broke down and my feet ache  
They never see that though

Bought a future verse with my rent check  
They'll never see that though  
See eye to eye with my friends less  
They'll never see that though  
Just fell off with my main thing  
They'll never see that though  
I need help now just to maintain  
They'll never see that though  
Smoke 4 blunts when I wake up  
They'll never see that though  
Just sold the rest of my Jacob  
They'll never see that though  
So broke now I can't see straight  
They'll never see that though  
Car broke down and my feet ache  
They never see that though
