

Babes In The Woods

Lyle Lovett

Babes in the woods
Oh which way to go
Babes in the woods
 No one to say no
Pretty people come to me
 Cry your heart all out
Tell me what it's all aboutWho remembers kerouac
 What was that all about
 Right on jack
 So long jack
Who remembers anything
 And who cares anyhow
 But here's to those still on the road
And those on the road backBabes in the woods
 Oh which way to go
 Babes in the woods
 No one to say no
Pretty people come to me
 Cry your heart all out
Tell me what it's all aboutPretty people hear me cry
 Cry my heart all out
 Tell me what it's all about
