

Common Ground (Get It Goin' On)

A Tribe Called Quest

Who that at the door?

Yo tip its her, yo

What you doing here, in front my face [Repeat: x3]

You didn't want my, you didn't want it

So go somewhere, where you are wanted

But if you want to, then you could come here

Come here yo, yo, yo

Have you ever met a woman who just took your breath?

(yeah yeah)

So deep inside her life she contemplated death

(damn she did give a fella the creeps)

Can't help but get attached to a woman like that

(true that, true that, true that, true that)

The contact was quite immediate, I had good tact

(because you the man, you know you the man)

We related and debated over food and toons

(you know I'm good)

It started out in September now we into the June

(say word, say word, say word, say word)

A simple night in the crib, now it just wont do

(no it just wont do, no it just wont do)

Because she liable to start shit to whail for you

(whail for you, whal for uh)

She wanna push em away, buy diamond chips

And trick on treats, converse em'll flip

Gotta do her hair, take her out to the fair

Win a teddy bear, make sure you don't stare

At another one coming, don't be starting nothing

Be a slave to her, don't be brave to her

Make sure that she right, make sure that you wrong

When she wants to do it, make sure that its long

If anybody wanna make it work, it's me

(hear me out, hear me out)

But we gotta come to a common ground, baby
(stay fly for me)

Any man, he could claim to be the one for you
(say word, say word, say word, say word)
But put a street to yourself and realize whats true
(yo word yo word yo word yo word)

If its me then lets get it goin' on
And if its me then lets get it goin' on [Repeat: x3]

Get it goin' on, lets get it goin' on
And if its me then lets get it goin' on
And if its me then lets get it goin' on

Five billion a brick, its more that you could take
See, I'm not the one to be taken advantage of
And if you really think about it, I got nothing but love
And if your heart isn't in it, please let me know
There's no need to waste time, if its no then I'll go

And if its me then lets get it goin' on [Repeat: x4]

Get it goin' on, lets get it goin' on
And if its me then lets get it goin' on
And if its me then lets get it goin' on
