

# Fault Lines

## Tom Petty & The Heartbreakers

See those fault lines  
Laid out like land mines  
It's hard to relax  
A promise broken  
The ground breaks open  
Love falls through the cracksAnd I've got a few of my own  
I've got a few of my own fault lines  
Running under my life  
Running under my lifeI'm alone here  
I play the odds, dear  
I go where I please  
Down the road  
A man I know might not be meAnd I've got a few of my own  
I've got a few of my own fault lines  
Running under my life  
Running under my lifeOn the high wire  
Above the wildfire  
An old acrobat  
A faulty cable  
And still he's able not to fall flatAnd I've got a few of my own  
I've got a few of my own fault lines  
Running under my life  
Running under my life
