

So Right For Me

Marques Houston

Hey baby, tell me your name
And tell me where you're from
Give me your number
Let me call you up sometime
Girl, I think you're so fine
And I thought maybe we can hook up
And go out on the town
Hop in my ride
And let me show you 'round my hood
Thinkin' on the first of something good
I don't wanna waste your time
I don't wanna pressure you
I really wanna get next to you 'cause baby, you
Baby, you're so right for me
Baby, you're so fly to me
Baby, you and I could be, meant to be
Can't you see, you're so right for me?
Can't blame you
Overprotective of an open heart
Looking for a reason to make this hard
'Cause I know what you want
Sweet lady, give me a chance
And I'ma prove you wrong
I got a feeling we can get along just fine
Never mind the guys
That comes with different lines
Said I don't wanna waste your time
Said I don't wanna pressure you
I really wanna get next to you 'cause baby, you
Baby, you're so right for me
Baby, you're so fly to me
Baby, you and I could be, meant to be
Can't you see, you're so right for me?
Girl, I'm telling you, I need a chance, baby
The other girls I know are all the same
I really need someone to know me, love me, touch me, oh girl
Like you, baby, I know you meet a lot of guys in the way, yeah
Said I don't wanna waste your time
I don't wanna pressure you

I really wanna get next to you 'cause baby, you
Baby, you're so right for me
Baby, you're so fly to me
Baby, you and I could be, meant to be
Baby, can't you see, you're so right for me?
Baby, you're so right for me
Baby, you're so fly to me
Baby, you and I could be, meant to be
Baby, can't you see, you're so right for me?
Baby tell me what to do you
Girl, tonight, we'll be making sweet love
