Stop Think

Ylona Garcia

Here we go again
Falling in love again
Falling in love all over

We thought we have seen the end thought it was over then but the feelings back and we're starting over

(Chorus)
Hanging Conversations
Silly Accusation
We never made it throught coz me and you
We never had a chance
And now we'er taking another
Stop think wait a minute is it love that we really feel? we been Hurting Bad We Been Hurt before dont you fall until we know for sure
Stop Think Wait a Minute Is it love that we really feel? We been there before we been throught that door dont you fall until we know for sure

Here we go again
Taking are chance again
Finding are self together

Falling in love again and losing it all again watching the world go by as we'er starting over

(Chorus)
Hanging conversations
Silly Accusation
We never made it trought coz me and you
We never had a chance and and now we'er taking another
Stop think wait a minute is it love that we really feel we been hurting bad we been hurt before dont you fall until we know for sure
Stop think wait a minute is it love that we really feel we been there before we been throught that door dont you fall until we know for sure..

Playing the fool together
Playing the game too long
We thought we wer waiting up
But wer starting over

I dont care if wer wrong!

(Chorus 1x)

Gotta think gotta think gotta think it through stop think wait a minute is it love that we really feel?...
