

# Stop Think

Ylona Garcia

Here we go again  
Falling in love again  
Falling in love all over

We thought we have seen the end thought it was over then but the feelings back and we're starting over

(Chorus)  
Hanging Conversations  
Silly Accusation  
We never made it through coz me and you  
We never had a chance  
And now we're taking another  
Stop think wait a minute is it love that we really feel? we been Hurting Bad We Been Hurt before dont you fall  
until we know for sure  
Stop Think Wait a Minute Is it love that we really feel? We been there before we been through that door dont  
you fall until we know for sure

Here we go again  
Taking a chance again  
Finding are self together

Falling in love again and losing it all again watching the world go by as we're starting over

(Chorus)  
Hanging conversations  
Silly Accusation  
We never made it through coz me and you  
We never had a chance and and now we're taking another  
Stop think wait a minute is it love that we really feel we been hurting bad we been hurt before dont you fall until  
we know for sure  
Stop think wait a minute is it love that we really feel we been there before we been through that door dont you  
fall until we know for sure..

Playing the fool together  
Playing the game too long  
We thought we were waiting up  
But were starting over

I dont care if wer wrong!

(Chorus 1x)

Gotta think gotta think gotta think it through stop think wait a minute is it love that we really feel?...
