

Warm Water

Bear In Heaven

You wont look away
The shit you said is burning up my brain
Give up, fever from beyond
Theres two of us and one of us is wrong Youre throwing a lot a way
The shit you said is burning up my brain
Get up, i think you already know
Theres two of us and one of us should go Get up, cmon
Get up, cmon You walk halfway
Little did i know that you really wouldnt look the other way
Let it go, let it go
Please dont, look the other way
Oh no, oh no, please dont, please dont
Let it go, let it go
Please dont, look the other way
Oh no, oh no, please dont Calling back the feeling
Dont let silent voices sway you
It will be the same game
And you hate it and you need it and you want it more and more
Take it from me, theres no other way to let go Never come back and make it up
I dont need it
Never come back and wake it up
I will bleed it
I wanna live, I wanna love, without feeling
Your love, your love, your love
