Crossroads

Minority 905

Chorus:
Give me something to do
And I want something new to value
I need some inspiration
To cure my lack of motivation

Verse 1:
Looking for a way out
From another rut
Someone wake me up inside
I'm tired of wasting time at home
Bored and all alone
Today I won't accept this empty feeling

I'm gonna own the night
Live it up tonight
Ride along the street lights
To anywhere but here

[Chorus]

Verse 2:
I can't wait any longer for someone who
Will never answer me
'Cause they're not worth my time
And they're the one to blame
For all my misery

I'm gonna own the night
And live it up tonight
Waste away with pressure
And live with my mistakes

Bridge
I've got nothing left to tell these crossroads
They're really getting under my skin
'Cause I don't know where to go

Outro:
If there's anyone who's just like me

I hope you understand me
If there's anyone who's just like me
I hope you understand me
