

# Valkyrie Missile

## Angels & Airwaves

Anybody out there?

Building up the pain, it's ready to go  
The rocket has launched, where will it go?  
And what will it be, and what will we do  
The match has sparked a fire anew  
And what will we do

Valkyrie missile, packed and away  
Something is coming, but I can't say  
She knows I know, and I know it too  
Surprise, here it is, we were waiting for you

Take a chance, 'cause I know you want to  
Let me kiss you, and let me save you  
Let me end your eternal fear  
Let me take you far away from here

Cocked and loaded, ready to go  
No one knows what happens when it goes  
One by one, the rockets fly  
Soaring into the February sky

Take a chance, 'cause I know you want to  
Let me kiss you, and let me save you  
Let me end your eternal fear  
Let me take you far away from here

Valkyrie missile, packed and away  
Something is coming, but I can't say  
She knows I know, and I know it too  
Surprise, here it is, we were waiting for you

Take a chance, 'cause I know you want to  
Let me kiss you, and let me save you  
Let me end your eternal fear  
Let me take you far away from here

Take a chance, 'cause I know you want to  
Let me kiss you, and let me save you

Let me end your eternal fear  
Let me take you far away from here
