Mad Mad World (Demo Version)

Strung Out

a friend is dead you look so hard
but you can't find a cause what does it mean?
in one breif moment a life is lost what does it a life of hurtin,
a life of chore, what does it mean? when all we leave is just a memory,
it's a mad mad world we're all doing time in a mad mad world,
we're all left behind in a mad mad world,
and all we leave is just a memory i think about the things you said
