Mastermind

Michelle Branch

You know you want it
but you've got no self-control
You keep it running
Like a junkyard stereo
A can of oil, And she?s ready to go
Yeah, you want it all
either death or glory
You got the money
but you ain't got no soul
a little honey on side of the road
It?s getting harder so you might slow
If you were slowing down
if you were slowing down now
CHORUS
The sun comes up
You turn me on
Like I knew you would
but When it?s dark
You turn me off
Baby you?re no good
I don?t know if I can
Stay right where I am
So turn me loose
It?s a part of your plan
You mastermind
You know you?ve always been the fortunate one
your mama doubted you "if only golden son"
you drink your bottle and you're radically gone
yeah you were bad news
Since the day you were born
Somehow you're counting
and you wont mistake your track

I took your love but then you had to stay with that
Now you?re giving me a heart attack
I?m not the only one
Yeah you?re a vagabond baby
The sun comes up
You turn me on

Like I knew you would
but When it?s dark
You turn me off
Baby you?re no good
I don?t know if I can
Stay right where I am
So turn me loose
It?s a part of your plan
You mastermind
I can run and I can hide
but i know you're gonna find me in the end
oh you mastermind
The sun comes up
You turn me on
Like I knew you would
but When it?s dark
You turn me off
Baby you?re no good
I don?t know if I can
Stay right where I am
So turn me loose
It?s a part of your plan
You mastermind
ohh ohohh
ohh ohohh
ohh ohohh ahh oh
