

Save Yourself

So They Say

What the hell are dreams anyways?
Mysteries, incredible body hocus pocus
Truth is, we still don't know what they are
Or where they come from I know why I asked you to remember
What they said to us
'Cause when I try to run I just shake
I just shake Don't replace my words
With softly spoken phrases
To cover my bruises and cuts
Bruises and cuts But as soon as I get out of this place
I'll do my best to keep you safe
But if I don't make it out
Please read this and save yourself But as soon as I get out of this place
I'll do my best to keep you safe
But if I don't make it out
Please read this and save yourself I can't catch my breath
For long enough to stand up to fight
In a sense we all die
We all die Everyone's a victim and I am the suspect
The verdict is in and it's all my fault But as soon as I get out of this place
I'll do my best to keep you safe
But if I don't make it out
Please read this and save yourself But as soon as I get out of this place
I'll do my best to keep you safe
But if I don't make it out
Please read this and save yourself But as soon as I get out of this place
I'll do my best to keep you safe
But if I don't make it out
Please read this and save yourself But as soon as I get out of this place
I'll do my best to keep you safe
But if I don't make it out
Please read this and save yourself But as soon as I get out of this place
I'll do my best to keep you safe
But if I don't make it out
Please read this and save yourself
