My Lucky Day

Smoking Popes

That settles it
This is my lucky day
That's what they always say
This is what they meanI'm looking up
Into a cloudless blue
Ever since I met you
It's been my lucky dayAnd I still don't know
What it's all about
But without a doubt
Today I just don't careI'm telling you
It's never been this way
And all that I can say is
This is my lucky dayAnd I still don't know
What it's all about
But without a doubt
Today I just don't careI'm looking up
Into a cloudless blue
Ever since I met you
It's been my lucky dayAnd all that I can say is
This is my lucky day
