

Saint Lying Next to You

Boogie Man Smash

I really tried to get to bed

Before the sun came up and changed my head

From the man last night who spent his bread

To the saint lying next to you

Going to bed likie a mers on a tree (sweet sweet sweet sweet sweet

And your hair in my face has stopped smelling sweet

Oh i feel so silly and

And my hands are sticky and the nails have grown too long, saturday morning

Havenâ€™t even slept to change my day

And i think itâ€™s already ruined

[LEAD WALK UP]

Is that your snoring

You look kinda pretty in the morning light

Or has got me thinking old sappy thoughts

Was i boring?

You look so pretty in the morning light

And if you donâ€™t love me thatâ€™s alright

Iâ€™m still thinking old sappy thoughts

[Intro]

I will try get to bed

Before the sun came up and changed my head

The man last night who spent his bread

To the saint lying next to you

[Lead 1]

Is that your snoring

You look kinda pretty in the morning light

Or has got me thinking old sappy thoughts

Was i boring?

You look so pretty in the morning light

And if you donâ€™t love me thatâ€™s alright

Iâ€™m still thinking old sappy thoughts

[Lead 2]
