

# the warmth

[blakvise](#)

I'd like to close my eyes, go numb  
But there's a cold wind coming from  
The top of the highest high rise today  
It's not a breeze 'cuz it blows hard  
Yes and it wants me to discard  
The humanity I know, watched the warmth blow away  
So don't let the world bring you down  
Not everyone here is that fucked up and cold  
Remember why you came and while you're alive  
Experience the warmth before you grow old  
So do you think I should adhere  
To that pressing new frontier  
And leave in my wake, a trail of fear  
Should I hold my head up high?  
And throw a wrench and spokes by  
I'm leaving the air behind me clear  
So don't let the world bring you down  
Not everyone here is that fucked up and cold  
Remember why you came and while you're alive  
Experience the warmth before you grow, before you grow old  
So don't let the world bring you down  
Not everyone here is that fucked up and cold  
Remember why you came and while you're alive  
Experience the warmth before you grow old, before you grow old  
Where did it go?  
Where did it go?  
Where did it go?  
Where did it go?
