Seein' Is Believin'

Whitecross

I go my own way and cover my tracks
Instead of chasin and checking the facts
I do believe my time is running shortIt's hard to tell just who's who anymore
So many people come and knock on my door
Many claim that they are the One
Somebody told me to reach for the SonI'm throwing it all away
So many times I've seen your love
I know it must be realWell, I've got to keep moving
Gotta look for what's real
But seein' is believin'
I gotta know which way to goTime and again someone's turned me around
But left me hanging with no truth to be found
I see your life and I wonder who's your master?Still I'm wandering around in a daze
Can't seem to find my way out of this haze
This old world's a merry go round
Won't someone show me to solid ground?I'm throwing it all away
So many times I've seen your love
I know it must be realWell, I've got to keep moving
Gotta look for what's real
But seein' is believin'
I gotta know which way to go
