# Wherever You Are

## Jeannie C. Riley

See the moon above the mountain watch the stars light up the sky
Oh wherever you are darling do you feel the same as I
Tell your heart you know that I love you and I never see us to care
Oh wherever you are my darling if I could I would be there
[ guitar - trumpet ]
Do you wherever long to see me do you wherever feel this blue
Oh wherever you are daling do you know that I missing you
If I could feel your arms all around me if I could hold you close to me
Oh wherever you are my darling there my heart will always be
