## You Me At Six

Wait up for my call  
'Cause I want it all  
I've chased for so long  
My time has come I don't say much  
With poise or grace  
I'll come of age  
In this town on this day  
The wrong song, the wrong place  
To say this to your face I'll come close, I'll come here  
I'll come loud And come clear That look in your eyes  
Says you're mine on this day  
The wrong time, the wrong place  
To say this to your face  
But I want you when I need you  
Every single night and day
