

Southern Stuff

Anthony Hamilton

You're like a Cadillac, cool breeze in the 70s
You and me holding hands talking family
That southern thing I like
You've got that southern stuff I like Its like after school, feelin hard 'cause Im into you
Barbeque, Ill even open the door for you
I know thats what you like
You've got that southern stuff I like, like, like Sweet southern thing, pretty skin, hair fixed
And when you grin, thats when all life begins
Cool like a fresh breeze, ooh, please come with me Lets take a ride, swing to the other side
Im much obliged to make your acquaintance
You're full of substance and oh girl, I love it You're like a Cadillac, cool breeze in the 70s
You and me holding hands talking family
That southern thing I like
You've got that southern stuff I like Its like after school, feelin hard 'cause Im into you
Barbeque, Ill even open the door for you
I know thats what you like
You've got that southern stuff I like, like, like Miss Georgia peach, Carolina, when you speak
Your southern droll makes me wanna know you more
Do you want a big family? Well, if so, I can handle it A gentleman, do the very best I can
Provide for you, I know you wanna finish school
Intelligence is beauty, girl, I wanna be your study I know just what you like, I know just what you need
Southern loving girl is all you need from me
I know just what you like, I know just what you need
Southern loving girl, I can set you free You're like a Cadillac, cool breeze in the 70s
You and me holding hands talking family
That southern thing I like
You've got that southern stuff I like Its like after school, feelin hard 'cause Im into you
Barbeque, Ill even open the door for you
I know thats what you like
You've got that southern stuff I like, like, like Cadillac, cool breeze in the 70s
You and me holding hands talking family
That southern thing I like
You've got that southern stuff I like Its like after school, feelin hard 'cause Im into you
Barbeque, Ill even open the door for you
I know thats what you like
You've got that southern stuff I like, like, like Southern thing I like about you, oh
Southern thing I like about you, yeah
