

Provocative (hiDhi)

Brit Smith

When you hear this, babe, everybody hands go high
When you hear this, babe, everybody hands go high

DANCE provocative
MOVE provocative
Move provocative

Turn it up, flame is up
I'm shutting down everything, light it up
Follow me, can a girl like me
Get whatever I need
If you feel like burning up
In the middle of the club
With the girls in a row
Says he's in it for my heart
But it ain't enough
It's an everyday struggle to stay away from love
You comment, I blow you up

And tonight is about me and my girls
And you better do what I say
And once we get another round
You will see just how we play
You can see we can make it pop off
You can see what they really talk about
You said you don't see me like that
When he didn't seem in love

When you hear this, babe, everybody hands go high
When you hear this, babe, everybody hands go high

DANCE provocative
MOVE provocative
Move provocative

When you hear this beat in the mama club
Tell the mama beat turn it up
When you play this shit in the club, the club
Get hot mama, burn up
We get wild for tonight, turnt up

Got liquor over here, baby, let's drink up
Later on we can do whatever we think of
Matter fact, won't you give your number, we can link up
Later, I stay chicked up
I keep these pretty little ladies dicked up
I done give 'em shit, that will get them gift up
I don't mix emotions, I don't get 'em mixed up
I keep my money in my pocket
My pills, just take 'cause I got it
Bitch, I came from the bottom 'cause life is a fight
So I tow that bitch, I'mma take it to the top
Like this

When you hear this, babe, everybody hands go high
When you hear this, babe, everybody hands go high

DANCE provocative
MOVE provocative
Move provocative

Move this way to the rhythm
Yeah, girl, it's the way you kill 'em
Better take your time if you give 'em
'Cause you know they be hot on first date
For me you got to roll like Vegas
When you hold, I'mma take it
I stick the whole makeup
So you better show me the money

When you hear this, babe, everybody hands go high
When you hear this, babe, everybody hands go high
