

# Chasm

## Code 3

Break up already, wake up now  
Walk away, take it all back now  
Don't be quick to lick the scab off  
You're spitting in his face with the rest of them  
Break up already, wake up now  
Walk away, take it all back now  
Don't be quick to lick the scab off  
You're spitting in his face with the rest of them  
Christ, give me something  
I'm so thirsty, I'm so thirsty  
Oh please, let me warn them  
Don't you come here, don't bring anyone here  
The chasm isn't fixed yet

Take this water, drinking ever deeper  
Living water, the chasm isn't fixed yet  
Take this water, drinking ever deeper  
Living water  
Christ, give me something  
I'm so thirsty, I'm so thirsty  
Oh please, let me warn them  
Don't you come here, don't bring anyone here  
Christ, give me something  
I'm so thirsty, I'm so thirsty  
Oh please, let me warn them  
Don't you come here, don't bring anyone here
