

# Rise a Night

## Sonata Arctica

Vast were the storms, no hope for the dying  
Home once so blue, a shade of grey in the dark  
Then a well-lettered man saw a smile on a dolphin  
It planted a thought with the eye of its mind  
You could build a ship, sail the stars  
Find a new home for all of us  
Fare in the night  
Find the light We have sealed the fate of our kind  
We have lost this fight  
Fly in the dark, and find a warm, blue light  
One to harbour life  
A hope arise anew  
Sailing forth, the Planet Blue will fill our needs  
We'll go in peace and ask them to  
Take us to their leaders, my friend  
And then we'll kill them all!  
Enslave their poor!  
And inflict fear, bring the all seeing Eye of Providence down here  
We found discarded beauty  
These creatures hate their home?  
The locals called this all Planet Earth  
Close their curtains, like a soldier does  
You're a hero for all of us!  
Kneel as light  
Rise a night  
A new dawn of life for our kind  
We will rise tonight Wooo...  
We will win this day,  
Their leaders, knights  
We control their minds  
Sailed in the dark, and found their warm, blue light  
Can still harbour life
