

Au Revoir

OneRepublic

Today I'm not myself
And you, you're someone else
And all these rules don't fit
And all that starts can quit
What a peculiar state, we're in
What a peculiar state, we're in
Let's play a game
Where all of the lives we lead
Could change
Let's play a game
Where nothing that we can see
The same
But we'll find other pieces to the puzzles
Slippin' out under the locks
I could show you how many moves to checkmate right now
We could take apart this life we're building
And pack it up inside a box
All that really matters is we're doing it right now
Right now
But we'll find other pieces to the puzzles
Slippin' out under the locks
I could show you how many moves to checkmate right now
We could take apart this life we're building
And pack it up inside a box
All that really matters is we're doing it right now
Right now
