Calling Out Your Name

Jimmy Nail

Feel it everywhere, all around the world
Everyone not knowing where they're going to
Take this light of mine, try to make it shine
Don't you know that I know where I'm going to?And I'm calling out, calling out your name
And I'm calling out, calling out your nameTake this light of mine burn the mission down
Don't believe the words of true believers
That's the reason why, do the things I do
Don't you know that I know where I'm going to?And I'm calling out, calling out your name
And I'm calling out, calling out your nameAnd I'm calling out, calling out your name
And I'm calling out, calling out your name
And I'm calling out, calling out your nameCalling out your name, calling out your name
I'm calling out, I'm calling out, calling out
