

# Just for You

## Rich The Kid

(INTRO)

Caught my Eye

Baby, you caught my eye

Caught my eye(CHORUS)

Baby girl I ain't a fool for love you caught my eye

When we first met we was just chillin', fuckin', gettin' high

But now I love you girl

I really need you girl

Fussin', fuckin' we was fightin'

Baby girl just ride it

She call me daddy when I'm inside it

Pull out my dick and she get excited

You was hurt to see my phone hoes textin' me

But I don't need them other bitches

Only you and me(VERSE 1)

Baby girl I ain't just playin'

I Really need you

I was tourin' on the road

Came home to see you

Thank you God for my soul mate

I told you that we was gon' be straight

No chance it was fake

Got outta jail beat the case

Now we ridin' round the hills out in Hollywood

Told your momma you with me

And we gon be good

Diamonds all in your ring

Imma show you what I mean

Now we onto better things

Forever you and me

Niggas hatin' they bitches

My fans tryna take pictures

Changing my life to be with you

Come home beat the pussy

Baby smell like Versace

Neck good, extra sloppy

Im'a buy you a Masi(CHORUS)
