Explode

Trash Talk

Clouds part and out come the howitzers
Cue the earthquakes spare the heartbreak
Now you're unproud still the sky falls in showers
Anthrax and anarchy
Lucid illusions of Hades in HD
Caps are a blast but to please me you need TNT
Explode
Stand by watch me
Explode
Goodbye blue sky
Explode
Stand by me
Explode
No one can save you now
A bush burns while bullets fly
You prayed for God instead the dogs of war arrived
Cursed to the core
Your final frontier lies facedown on a bomb shelter floor
Anthrax and anarchy
Lucid illusions of Hades in HD
Caps are a blast but to please me you need TNT
Explode
Stand by watch me
Explode
Goodbye blue sky
Explode
Stand by me
Explode
No one can save you now
From the peak of Mount Vesuvius to the deepest depths at Dome of the Rock
Nothing can save you if you want it or not
No more redemption
I didn't come to sling salvation
I bring you missiles tonight
Stand by and watch me
Explode
Stand by watch me
Explode
Goodbye blue sky

Explode
Stand by me
Explode
No one can save you now
