

# (in The) Cold Light Of Day

Gene Pitney

I've offered you all I have  
Just to spend my life with you (Just to be with you)  
But someone's got a claim on me  
These few hours will have to do  
So hold me tight, let's make this night last forever

Cos in the cold light of day, baby  
I'll be going on my way  
You're good for me, baby, but we met too late  
And I've got so much love to give  
And I've just got to learn to live  
Without you

How could we know the time would come  
When you and I would feel this way (Just to be with you)  
Love started as a playful thing  
Just turned out a different way  
So clock on the wall  
Please don't tick at all  
Just stand still

Cos in the cold light of day, baby  
I'll be going on my way  
You're good for me, baby, but we met too late  
And I've got so much love to give  
And I've just got to learn to live  
Without you

In the cold light of day baby  
I'll be going on my way (repeat 2x)
