

High (feat. Sarah de Warren)

Får Alltid

Tell me that you want to take me higher.
Give me all of the things that I desire.
Lead me to a place where we can feed our fire.
Teach me all the ways that we can make it brighter.

Hold me and it feels so right.
(you know that you got my love, you're all that I'm thinking of)
And you don't even need to try.
(you don't even need to try, I know that you'll take me)
High, high.
(you know that you got my love, you're all that I'm thinking of)
High, high.
(I know you can take me up, you're all that I'm thinking of)

Hold me and it feels so right.
I tell you that I want to take you higher.
Though I try to hide it.
(hide it)
You know that I want this.
(I want this)
I'm just trying to time it.
(time it)
I don't wanna rush things.

Hold me and it feels so right.
(you know that you got my love, you're all that I'm thinking of)
And you don't even need to try.
(you don't even need to try, I know that you'll take me)
High, high.
(you know that you got my love, you're all that I'm thinking of)
High, high.
(I know you can take me up, you're all that I'm thinking of)
Hold me and it feels so right.
And you don't even need to try.
High, high. ı»¿
High, high.
