We Three

Eddie Hazel

Every Sunday I will go down to the bar
And leave him the guitar
You say you want me
I want another
Say you dream of me
Dream of your brother
Oh, the stars shine so suspiciously
For we three
You said when you were with me
That nothing made you high
We drank all night together
And you began to cry so recklessly
Baby, please don't take my hope away from me
You say you want me
I want another, baby
You say you wish for me
Wish for your brother
Oh, the dice roll so deceptively
For we three
It was just another Saturday

And everything was in the key of a
And I lit a cigarette for your brother
And he turned and heard me say so desperately
Baby, please don't take my hope away from me
You say you want me
I want another
You say you pray for me
Pray for your brother
Oh, the way that I see him
Is the way I see myself
So please stand back now
And let time tell you
Oh, can't you see
That time is the key
That will unlock the destiny
Of we three?
Every night on separate stars
Before we go to sleep we pray so breathlessly

Baby, please don't take my hope away from me
