

# Mr. Duracell

## Wayna

Ohh, oh

I went on a blind date last Friday night, yeah  
I got my hair done, my nails done, I was looking fly  
And when we sat down to have a meal  
I could barely believe what my eyes were seeing was real  
Apparently his mama never taught him how to chew his food  
Or that ticking his teeth at the table was really rude  
Went home and try to think of someone I could call  
Oh yeah, I know... good, though reliable

Mr. Duracell, yeah

[ah-ah-ahhh]

Every now and then, you'll do it just swell, yeah  
It's a job for Mr. Duracell, yeah  
[ah-ah-ahhh]  
Every now and then, you'll do just swell, yeah  
And I know he'll never tell

Yo, when my man is tripping, yeah [ohh, oh]  
And the channels he keeps on switching, switching  
[sigh] Baby, that was that episode where Keri breaks up with Aden  
I mean, I was watching [ohh, oh-oh-oh]  
But it's like he's not even listening, no  
Mm-mm-mmm, sit around all day in front of that Playstation  
Making love with Charmadam King pure magic  
Oh, but what he don't know is  
I got that Playstation of my own

And he goes by Mr. Duracell, yeah  
[ah-ah-ahh]  
Every now and then, you'll do it just swell  
It's a job for Mr. Duracell, yeah  
[ah-ah-ahhh]  
Every now and then, you'll do just swell, yeah  
And I know he'll never tell

Now this is not meant to put the brothers down and make them feel left out, no  
It's just a friendly reminder to treat your sisters a little kinder  
'Cause even though Mr. Duracell may be comforting  
Then it all refers to real, real value things

Then it refers the real things  
Brothers, won't you love us right  
Brothers, brothers, love, love us right, yeah  
Won't you love us right, love

{guitar solo}

Brothers, if you just love us right  
Brothers, love us right  
Brothers, if you just love us right  
Brothers, love us right

Brothers, if you just love us right  
Brothers, love us right  
Brothers, if you just love us right  
Brothers, love us right  
Love, love us right, yeah

Going, going, going, going, going on  
Going, going, going, going, going on  
Going, going, going, going, going on  
Going, going, going, going... going... going... gone....

---
