

# This Is Heavy Metal

## Lordi

You think they are all dead  
But it's all in your head  
The zombies never left  
They're just a bit faded There's no way you can win  
They're on a mission to sin  
They're the rocking dead  
Shaking the jaded Ooh, you never got it  
The hair metal mayhem  
Ooh, I heard the tons of bullshit you talk  
Now let's see you walk Now this is heavy metal  
No matter what you say  
Now this is heavy metal  
The only righteous way The horsemen they come  
They'll swing their axes like guns  
Apocalypse in neon  
And spandex The ones that you mock  
Deliver audio shock  
In the old school  
Hard rock vortex Ooh, you never got it  
The hair metal mayhem  
Ooh, I heard the tons of bullshit you talk  
Now let's see you walk Now this is heavy metal  
No matter what you say  
Now this is heavy metal  
The only righteous way  
Yeah, yeah, yeah, yeah Heavy metal  
Heavy metal  
Heavy metal  
Heavy metal Now this is heavy metal  
(Heavy metal)  
No matter what you say  
(Heavy metal) Now this is heavy metal  
(Heavy metal)  
The only righteous way Now this is heavy metal  
No matter what you say  
Now this is heavy metal  
The only righteous way Now this is heavy metal  
No matter what you say, no  
Now this is heavy metal

The only righteous way Now this is heavy metal
