

# Compliment Each Other Like Colors

## [PlayRadioPlay!](#)

If we try hard enough I'm sure we could forget it  
Cause this black hearted wedding's enough to start a panic  
We were clean for three days when you were running down the block  
11 minutes sober now we're counting down the clock And Donnie says you're the reason we are here  
And we all know that what Donnie says is true  
So go to bed, this life is not a shameless waste  
And we all know that's what it is to you, goodnight We will overcome  
Every night to the sound of the kick drum  
We've got it figured out  
Every night to the sound of the break down We can stand the street  
Every night to the sound the break beat  
I feel like my worn hands  
Are empty waiting for God's new plans Please darling, wont you lead the way?  
My world was flipped now I have gone astray  
Now it falls apart  
Every night to the sight of the dim stars Please darling, wont you lead the way?  
Please darling, wont you lead the way? I take it slow because I have time  
Back to the days when you were mine  
Back to this faulty relationship  
Back to the days when we both fit I take it slow because I have time  
Back to the days when you were mine  
Back to this faulty relationship  
Back to the days when we both fit Is this it or could we still compliment  
Each other like colors in harmony that make  
Each other look brighter like we did in the old days  
Like we did in the old days?
