

# My World Within

## Face Tomorrow

I'm lost without.

I'm lost within.

I disconnect.

I'm going in. A place where life makes sense to me.

A world where I would rather be. I'm lost, I'm lost.

I've lost it too.

I'm lost I'm lost.

I'm lost like you. I'm lost without my world within.

A place where I am wandering. I feel the need, to disengage,  
to lose myself, to hide my face. I'm lost without an inch of fear.

I won't come out.

I like it here. I'm lost without my world within.

A place where I am wandering.

I'm lost without my world within.

A place where I am wandering. Now please don't stop creating this. I'm ok I like it here.

This is what I long for.

This is where I meet myself. I'm lost without my world within.

A place where I am wandering.
