

In the Woods

Mortification

In the woods blacken ways, turn to day
Dark mist move and twist, won't stay
Guiding eyes from the sky, lead our path
Tangled vines cutting back, see our track
In the woods, prophecy
In the woods, daylight
See the sky, empty night, bring the light
Ray of sun flashing high, trees alight
Burning flesh [Incomprehensible] eyes
God's son, pouring forth, breaking dark
In the woods, prophecy
In the woods, daylight
Walking forth in our faith, not afraid
Dark ways crowding in, don't betray
Mighty lord bringing forth, our guide
See the path, reach the end, glory side
In the woods, prophecy
In the woods, daylight
