

I Don't Feel Anything

Willie Nelson

I don't feel anything what was I worried for
I don't feel love or hate or anything that I felt before
Why was I so afraid of seeing you again
Cause it's the strangest thing I don't feel anything
How I must have loved you once upon a time
And I can't seem to feel emotion now of any kind
Why was I so afraid of seeing you again
'Cause it's the strangest thing I don't feel anything You look the same as always time's been good to you
But I must confess that time has done a few things for me too
Why was I so afraid
But it's the strangest thing I don't feel anything
