

# Poor Boy

[Tara MacLean](#)

Poor boy, no one on his arm  
He's got tongue for talent  
Got head off and your feet on, you want it  
Hungry now and begging for my skin You said, you said, I feel good all over  
You said, you said there's never been another  
Like me, like me, there's nobody like me  
Oh, baby it's a shame that you can't say the same You wrap me in, take a look take a lick, mmm  
It's the cure for anything  
You want my deepest thoughts, want to catch me hot  
Everybody's got their going rate You said, you said, I feel good all over  
You said, you said there's never been another  
Like me, like me, there's nobody like me  
Like me, like me, there's nobody like me  
Baby it's a shame that you can't say the same You said, you said, I feel good all over  
You said, you said there's never been another  
Like me, like me, there's nobody like me  
Oh, baby it's a shame that you can't say the same You said, you said, I feel good all over  
You said, you said there's never been another  
Like me, like me, there's nobody like me  
Like me, like me, there's nobody like me Like me, like me, there's nobody like me  
Baby it's such a shame that you can't say the same
