gel

kim ki o

Color me any color
Speak to me in tongues and share
Tell me how you'd love to hate me
Tell me how you'd love to care
Well I just want to shake us up
Well I just want, well I just want to, to shake us up
Let's mingle
And make it well
Come together now
Yeah, let's gel
Clothe me in any fashion
Glitter to so mundane
Tell me how you'd love to change me
Tell me I can stay the same
Well I just want to shake us up
Well I just want, well I just want to, to shake us up
Let's mingle
And make it well
Come together now
Yeah, let's gel
Let's mingle
And make it well
Come together now
Yeah, let's gel
Well let's bungle
And live to tell
How we came together
Yeah, how we gelled
