Sunshine for Now

Super Deluxe

Sunshine
almost made it to you
but for now I'm
inside
bursting open without coming throughinthis unfamiliar place
it won't glow just for your sakedaylight
contemplating on why
for the moment
insight
burning within
waiting for goodbyei don't know just what it takes
it won't glow just for your sakeand if you find out
just what it's all about
drowning by your own design
and still you feed it
drawing heaven
from the wealth of your own mind.....yeahi....
whoa
i....
and if you find out
just what it's all about
drowning by your own design
and still you feed it
drawing heaven
from the wealth of your own mind
