

Kids These Days

Kongos

Oh kids these days
They don't have respect
They just talk on those cellphones
And listen to their tape cassettes
It's what that teacher said
With disgust in every breath
His students listened carelessly
They were easily unimpressed
He said it with such conviction
Whether truth or fiction
And it went
Round and round
They'd reinvent the wheel
Watch it spin and marvel
At the breakthrough
They had found
Another war to end all wars
Depressions are no more
Gravity works on occasion
It won't always bring you to the floor
It's a Spanish questionnaire
Conquest through love affair
A trillion here or there
I'm sure it'll work with a little prayer
He said it with such conviction
Whether truth or fiction
And it went
Round and round
They'd reinvent the wheel
Watch it spin and marvel
At the breakthrough
They had found
They'd reinvent the wheel
Watch it spin and marvel
At the breakthrough
They had found
He said it with such conviction
Whether truth or fiction
And it went
Round and round
They'd reinvent the wheel
Watch it spin and marvel
At the breakthrough
They had found
They'd reinvent the wheel
Watch it spin and marvel
At the breakthrough
They had found
