

# Chemicals

## Breathe Carolina

All this wasted space  
This whole room it takes  
Hard to stay awake  
This is my escape If we feel it back up  
Amphetamine rush  
Set me on fire tonight, tonight  
If we feel it back up  
Amphetamine rush  
Set me on fire tonight, tonight It's getting critical, getting critical  
I gotta let it go, gotta let it go  
Your my chemical, your my chemical  
Killer, killer, killer, killer Stabs me in the back  
Takes me all I have  
Wrestle to the floor  
See you soon for more If we feel it back up  
Amphetamine rush  
Set me on fire tonight, tonight  
If we feel it back up  
Amphetamine rush  
Set me on fire tonight, tonight It's getting critical, getting critical oh oh  
I gotta let it go, gotta let it go oh oh  
Your my chemical, your my chemical oh oh  
Killer, killer, killer, killer It's getting critical, getting critical oh oh  
I gotta let it go, gotta let it go oh oh  
Your my chemical, your my chemical oh oh  
Killer, killer, killer, killer It's getting critical, getting critical oh oh  
I gotta let it go, gotta let it go oh oh  
Your my chemical, your my chemical oh oh  
Killer, killer, killer, killer
