Domino Effect

Gotthard

I light a spark and you feed the flame
The whole worldâ€™s on fire
I say a word, then you say the same
Now we're all in the choir

And one thingâ€™s for sure
Still ainâ€™t a cure
To defeat the human chain

Truth is my friend
It will never end
And itâ€™s been like this before

The story goes on
They fall one by one
Trying to stand
But the gameâ€™s just begun

From the first one in line
To the last in no time
And it seems thereâ€™s no way to reject
The domino effect
The domino effect

News travels fast, like words on the street
Weâ€™re tearing walls down
So easy to affect, we tend to believe
What might come around

And one thingâ€™s for sure
Still ainâ€™t a cure
And thereâ€™s nothing you can do

Truth is my friend
It will never end
And itâ€™s been like this before

The story goes on
They fall one by one
Trying to stand

But the gameâ€™s just begun

From the first one in line
To the last in no time
And it seems thereâ€™s no way to reject
The domino effect
The domino effect
The domino effect

Truth is my friend
It will never end
And itâ€™s been like this before

The story goes on
They fall one by one
Trying to stand
But the gameâ€™s just begun

From the first one in line
To the last in no time
And it seems thereâ€™s no way to reject
The domino effect

The domino effect
The domino effect
The domino effect

The domino effect
The domino effect
The domino effect
The domino effect
The domino effect
